

The War This Week

Production

U. S. production of planes has reached the level of "nearly 5,000 a month," and by next year we will have reached the President's goal of 10,000 a month, the Senate Appropriations Committee announced. WPB Chairman Nelson, after a tour of the automotive industry in Detroit, said American industry could "more than double present production by 1944." He also said the Government synthetic rubber program would be able to take care of "all war production and essential civilian needs" by 1944.

Ships

A record total of 58 ships were delivered into service during May, while 65 other ships were launched and keels were laid for 75, the Maritime Commission reported. This compared with 36 delivered and 51 launched in April. The President asked Congress for an appropriation of \$1,100,000,000 for the WSA to acquire and operate merchant vessels to carry American arms.

Civilian Supply

WPB Materials Director A. I. Henderson said vital materials can no longer be used except for war and maintenance of those necessary to the war because from now on "it will be a continuous problem to provide materials to meet the needs of our fighting forces." The WPB said preferred applicants for new telephones cannot obtain service unless they prove the service is essential to the discharge of their responsibility for public health, welfare or security.

Foreign Relations

The U. S. signed a Lend-Lease agreement with China, substantially the same as its aid to Britain, and proposed Lend-Lease agreements on the same terms with the Norwegian, Belgium, Greek and Netherlands Governments in exile. Lend-Lease Administrator Stettinius said under the joint control of the combined boards in London and Washington the resources of the United Nations are

Abraham Goldberg

One of the right hands of Zionism was lost this week by the death of Abraham Goldberg, veteran Zionist and writer.

It was 20 years ago that Mr. Goldberg saw the fruition of many months of frantic work when both Houses of Congress adopted a resolution favoring the establishment of a Jewish Homeland in Palestine.

He will be remembered as a forceful personality that did much to educate the American public in the importance and value of Zionism.

Shaking Morale

One cardinal principle of our kind of government is that public officials should treat the people with perfect frankness. American citizens are entitled to all the facts, except those which constitute actual military secrets. Are the American people being accorded frankness? The gasoline and automobile situation raises this question.

The American motorist is completely up in the air as to the future of car transportation. He has heard countless varying reports. He has read conflicting statements after conflicting statements from high Washington officials. He is told, on the one hand, that gasoline rationing is necessary because lack of various means of transportation makes it impossible to deliver normal supplies. He then hears that the storage tanks are running over with gasoline even in rationed areas, and that civilian consumption is really being reduced in order to conserve tires and cars. Next he reads an official statement that the government may soon have to requisition his tires and his car. Before the ink is dry on that report, he hears over the radio that such drastic action is not contemplated. Then to top it off, the next news report from Washington says it is hoped that experiments now under way will produce a tire that will keep the cars rolling, etc., etc.

The citizen is lost in a welter of confusion. He doesn't know whether he is going to have gas or even a car next month or next season. He doesn't know whether the synthetic rubber and the rubber-reclaiming programs are going well or badly. And nothing is harder on public morale

Praise Jewish War Contribution

MONTICELLO, N. Y. — The contribution of the Jews "forms an essential element of the general American pattern," State Comptroller Joseph V. O'Leary told the Jewish War Veterans at their annual state convention.

"While the Jews today constitute about 8 per cent of our total population" he said, "I am reliably informed that about 8 percent are now in military service."

"When you hear whisperings of discrimination against the Jews or against any other segment of our population, it is a 1000-to-one chance that such whisperings originated in the evil minds of the Nazis seeking to divert us from the unity so necessary for victory."

125,000 Killed Under Antonescu

LONDON — 125,000 Jews were killed in Rumania under the Antonescu regime, while 150,000 Jews and non-Jews were arrested and sent to concentration camps, according to the Ankara correspondent for the London "Sunday Times".

A recent census of Jews in Rumania reported that there are now 240,000 living in Old Rumania compared with 150,000 one year ago. The remainder, according to reliable reports from Istanbul, were murdered, deported or interned. Jews have been removed from great areas of the Bucovina, Bessarabia and Moldavia; their estates have been confiscated.

Expose Front For Bund; Club Adjoins Police Station

NEW YORK — The Non-Sectarian Anti-Nazi League this week revealed the existence of a new front for the presumably defunct German-American Bund and urged the F.B.I. to take immediate action.

The league asserted that the so-called Bronx Athletic Club, at 868 Washington Avenue, Bronx, which formerly was known as the "Bronx Brown House", when it served as a regular Bund meeting place, is composed of ex-Bund and "Christian Front" members. The club, which occupies a two-story brick building, adjoins a police station.

President of the Bronx Athletic Club is Henry Von Holt, who for three years was head of the German-American Bund youth division and was one of the most active members of the stormtroop unit

Facts About The Jewish National Fund

By ALTER BOYMAN

The Jewish National Fund was proposed at the first Zionist Congress in 1897 by Professor Hermann Schapira and was organized in 1901 — at the 5th Zionist Congress under the guidance of Dr. Herzl. It was chartered in London under the Hebrew name of Keren Kayemeth.

The object of the Jewish National Fund is to acquire land in Palestine by voluntary contributions of the Jewish people. Such land would then become the property of the Jewish people and it would be leased exclusively on hereditary leasehold for cultivation or building thereon. To facilitate the settlement of working

farmers, to ensure the cultivation of land by Jews, to insure the right use of the soil and to combat speculation in land values, are functions of the National Fund.

The Fund obtains its money through various sources. One through the National Fund Register

Role of Palestine Will be Discussed Co-Chairmen List Evening's Program

Senator Alben W. Barkley, Majority Leader of the U. S. Senate and Rabbi Milton Steinberg, author and lecturer, will be guest speakers at the 40th anniversary dinner-celebration of the Jewish National Fund next Thursday evening in the Biltmore Hotel.

As this month also marks the 20th anniversary of the adoption of the Palestine Resolution by both Houses of Congress in 1922, the speech of Senator Barkley, a leading member of the American Palestine Committee which is composed of members of Congress, university presidents and leading clergymen, will bear directly on the role of Palestine as an important war front in the Middle East.

Reporter Reveals Fear of Vatican Shields Jews in Italy

NEW YORK — David Colin, who just returned from Italy, revealed in the N. Y. Post this week, that the Jews in Italy need not wear the David Star, as in other European countries on Hitler's orders, because Mussolini feared a serious rift with the Vatican would arise from this measure.

All Jews in Italy, however, between the ages of 18 and 55 were mobilized for forced labor in war

industries. Four hundred Jewish physicians and 300 Jewish engineers, exempted from general forced labor, will soon be called to special service.

The Fascists have made some of the Italian Jews so-called "honorary Aryans" in order to exploit their services. Mussolini called upon the Jewish admiral Umberto Pugliesi after the battle of Taranto, to try to salvage two battleships which were under water. Pugliesi, who is the principal designer of all the vessels in the Italian navy, has succeeded in refloating one of the battleships and is now working on the second, the Conte di Cavour.

Kunze, Nazi Head In U. S. Escapes

NEW YORK — G. Wilhelm Kunze, the Nazi agent who replaced Fritz Kuhn as "Fuhrer" of the Nazi-American Bund, has escaped from the United States and made his way to Mexico or South America, it was reported this week by The Hour, well-informed anti-Fascist weekly.

The anti-Nazi publication stated that "the last trace of the key German espionage and propaganda agent was found in Chicago, Illinois, where his empty car has been located by the authorities."

Sweeney Loses Court Appeal

WASHINGTON — Congressman Martil L. Sweeney whose libel suits recur in the news constantly, lost one of the rounds when the United States Court of Appeals denied his appeal from the ruling of a lower court in favor of Mrs. Eleanor M. Patterson, publisher of the Washington Times-Herald, who had been sued for \$20,000 for having published one of the Pearson-Allen columns charging anti-Semitism to the Ohio Representative. In the intervening years since the suit was initiated Mrs. Patterson has come to dislike Pearson and Allen as much as the Congressman does, this time because the columnists have attacked pro-Axis publishers.

Can't Fight Fires Without Nazi OK

ZURICH — Jews in the overcrowded, confined ghettos of Nazi-occupied Poland have been forbidden to extinguish fires, no matter how threatening, unless a representative of the Gestapo is on the scene, it was reported here this week.

Nazi authorities, in issuing the order to the Jewish fire fighters in the ghettos, charged that the measure was necessary to prevent Jews from escaping from the ghettos during the excitement and confusion caused by large fires.

Hear Sons Voice From Chungking

NEW YORK — Although the voice coming over the air was muffled and thousands of miles away, the Samuel Landeshbergs of Brooklyn laughed and cried when their son Sidney spoke to them from Chungking, China.

The 28-year-old American soldier's voice was indistinct, but his father a novelty manufacturer, his mother Fanny, his brother and sister and his best girl, Stephanie were overwhelmed with emotion when the broadcast came across.

"I'm proud of him," his mother said, "He's wonderful," Stephanie exclaimed, "My heart goes faster," the proud father declared.

Sees No Need For Jewish Army

ATLANTIC CITY — Dr. David Phillipson of Cincinnati, only surviving member of the original group of reform rabbis in Pittsburgh 57 years ago, asserted that Jews should give up any idea of a Jewish nation in Palestine.

Speaking at a meeting held in protest against a movement by Zionist groups for creation of a separate Jewish army, Dr. Phillipson said that while hope of a reclaimed Palestine was once a spiritual salve for oppressed Jews, there was no longer any need for such aspirations, and "religious beliefs and practices must adapt themselves to the growing thought of men."

Frank to Head Resources Board

WASHINGTON — William K. Frank, Pittsburgh philanthropist and Jewish communal leader who has been serving with the Production Division of WPB, has been named chairman of a Resources Protection Board by Donald M. Nelson, chairman of the War Production Board.

The Board, which will cooperate closely with the Army, Navy, Maritime Commission and OGD, will evaluate the relative wartime importance of all industrial plants, war installations and facilities.

Arthur I. Mayor Dennis J. Roberts will extend official greetings of the city to Senator Barkley.

As part of the entertainment, Gladys Chernack Kapstein will sing several Palestine songs, accompanied at the piano by Sylvia B. Rose.

now, in effect, one big pool, with each nation contributing to the extent permitted by its resources and military position. Reciprocal aid from nations receiving supplies from the U. S. is providing material for American troops abroad without dollar payments, he said.

Rationing
All motorists will receive A books containing a year's base supply of 48 coupons under the new permanent gasoline rationing system which will be established in the East about the first week of July, OPA said. Supplementary B books with an additional 16 coupons will be issued to motorists who prove need for extra rations, providing they are members of a car pool. No unlimited privileges will be granted any one, but C books containing 96 coupons will be issued to some motorists. S books for trucks and buses, good for a four month period, will cover just enough fuel for the mileage allowed in forthcoming ODT regulations. Motorcyclists will receive D books, good for 40 percent as much gasoline as A books. Under the new system, service stations and distributors will be required to turn in collected coupons when purchasing new stocks.

than this kind of indecisions, because it undermines confidence in leadership and governmental management.

The American people don't want to be pampered. They are sending their boys to war and financing its cost to preserve liberty at home. They don't want to be treated like children. They don't want to be kept in the dark concerning matters vital to their welfare. What they do want is for their government to tell them the truth, explain the facts, adopt only policies which are in accord with true conditions, and stick to those policies.

Over 1,200 Indians have enlisted in the Canadian armed forces.

Consumer to Feel Rationing Pinch

WASHINGTON — A hint that the war will shortly strangle the buying power of the American consumer was given this week by Joseph L. Weiner, deputy director of the War Production Board, who made the following forecasts:

Rationing of coffee, tea, and cocoa is likely. Bananas will be scarce. Fish supplies will be limited by the submarine hazard to fishing fleets. But there is no danger that the country will lack necessary staples.

Rationing of clothing probably can be avoided this year, but the WPB is unwilling to make predictions beyond that time. Wool may be forbidden in some types of clothing, and woolen mills will be required to blend other materials into their fabrics. More cotton must be worn.

Shoes may be scarce. However, stocks of shoes and clothing in commercial hands are higher than they ever have been.

Because of power and oil shortages, travel will have to be curtailed. Persons who can convert oil-heating equipment to the use of coal should do so immediately.

A.Z.A. Group Elects George Bressler

George Bressler was re-elected president of the Roger Williams Lodge, A.Z.A., at a recent meeting, it was announced this week. Other officers chosen were Burton Rubin, vice-president; Leroy Baker, secretary; Jack Pearl, treasurer; Lester Katz, reporter; Paul Nulman, sergeant at arms; Milton Dwares, assistant sergeant of arms; and Saul Kroll, chaplain.

These officers will be installed at a date to be announced. Frank F. Swartz was elected adviser to the organization.

LITTLE STORIES ABOUT WELL-KNOWN PEOPLE:

Pearson and Allen like to tell this story about F. D. R. ... When he was a young lawyer he was retained to handle a difficult civil case. The rival attorney was an effective jury pleader and he completely outshone his youthful rival in the argument to the jury. However, he made one fatal mistake. He orated for several hours. As he thundered on, Roosevelt noticed the jury wasn't paying much attention. So when his turn came he rose and said: "Gentlemen, you have heard the evidence. You also have listened to my distinguished colleague, a brilliant orator. If you believe him and disbelieve the evidence, you will decide in his favor. That's all I have to say."

The jury was out only five minutes and brought in a verdict for F. D. R.'s client.

This is the reason for the H. L. that goes before Mencken's name. As a youth he had a little printing business and used to print cards with his name on for advertising purposes. But his father smashed all his black letter lower case "r's"—so he had to print his name H. L. Mencken—instead of Henry L., and that's the way it has remained.

Years ago in Wisconsin, a young man was chopping wood and accidentally hit himself in the foot with the axe. He moaned and groaned and his face was contorted in pain while his shoe was slowly being removed—so the wound could be treated. However, when the shoe was taken off it was revealed that he wasn't even scratched. One of the onlookers commented that he had a wonderful imagination and would make a great actor.

His name—Alfred Lunt.

When the piano Beethoven composed his music on was exhibited in a European museum, visitors were given the thrill of sitting down and playing it. Everybody took advantage of that honor—ex-

cept Paderewski. When the museum guard asked him why he didn't sit down and play, he replied, "I do not feel worthy enough to touch it."

Henry Clay, the eminent statesman, knew how to say the right thing at the right time. A pretty young thing once reproached him for failing to remember her name. . . . But Clay was equal to the occasion, replying gallantly: "I didn't recall your name, because when we last met I was sure your beauty and talent would soon compel you to change it."

This is one of the best squelches we have ever come across. A friend once told Voltaire: "It is good of you to say such pleasant things about an enemy when he always says such nasty things about you."

To which Voltaire replied: "Perhaps we are both mistaken."

When Marshal Foch visited America he went to see the Grand Canyon. As he stood looking down into the depths of the amazing natural wonder, reporters all around him waited breathlessly for a comment that would go down in history. After a few minutes of dramatic silence, the Marshal observed: "What a beautiful place to drop one's mother-in-law!"

Among other things, Oliver Wendell Holmes was a doctor, but he wasn't very successful in that profession. Seems that people were a bit doubtful about the flippant medico who posted his sign above his shingle: "Small fevers gratefully received."

Among the better tales about Calvin Coolidge's brevity is this: A reporter was interviewing him. "Do you wish to say anything about prohibition?" he asked.

"No."
"About the farm bloc?"
"No."
"About the World Court?"
"No."

The reporter turned to go. "By the way," said Coolidge, "don't quote me."

Albert Einstein once had the misfortune to be a guest at a very dull party. Throughout the evening yawns ran wild. . . . At the end of the affair, the host remarked sympathetically to him: "I'm afraid you were terribly bored." . . . Einstein smiled and replied: "No. On occasions like this I retire to the back of my mind, and there I am happy."

For the last five months of her life Marie Dressler's illness let her be up for a few days, then down again—getting worse all the time. Each week, no matter how busy he was, Louis B. Mayer used to take a brief case full of scenarios to her home. Her illness was never mentioned. Mayer merely discussed stories and plans for the future, exactly as if she were still working. Right through the last week of her life, Miss Dressler remained cheerful and happy because of Mayer's thoughtfulness.

Boston Approves Religion in Schools Program to Affect Elementary Grades

BOSTON — Religious instruction of one hour a week for Boston school children was recommended in nine elementary schools beginning Oct. 1 by a special committee of the Boston School Board which reported the scheme favorably to the Board at a meeting this week.

Representatives of Roman Catholic, Protestant, Jewish and Christian Science churches, were members of the special committee, which recommended adoption of the religious instruction program. If adopted as recommended, the plan would provide that children whose parents have specifically requested it would be dismissed from their class work one hour a week for religious instruction given outside the school by the church selected by the parents.

Under the projected program of religious instruction, no children would be dismissed unless written request were received from their parents. Children who do not attend religious school during the one hour a week period would be given "character education" by their regular teachers within the school building.

Tragedy Mars Wedding Party

BROOKLYN — The liveliest of the 100 guests at the wedding party of Samuel Atkin, 26, and Miss Ruth Widenbaum, 21, was Atkin's 75-year-old grandmother, Mrs. Ida Atkin.

For almost three hours she danced the kazatska, ignoring suggestions of her two sons and three daughters that she take a rest.

"I don't know where I'm going tomorrow, but I'm living tonight," she said.

Ten minutes before midnight she collapsed and died a few minutes later with a smile on her lips. The guests left, a rabbi chanted the Kaddish, and then the marriage ceremony was held.

For a Woman's Fancy

Some tips on the conservation of precious war materials possibly may appear on posters throughout the stores in the country ... You may not know it, but the rubber in 3400 girdles will make one jeep tire, the metal in eight electric toasters a 75 mm. gun shell-case and many other items are useful to soldier's equipment ... That being the case these posters will advise us to take better care of the things we buy ...

Here are a few tips: Never immerse the heating unit of any electric appliance in water ... Don't use cleaning powders on aluminum pans. Boil water and vinegar in pan to remove stains ... Look for informative label on cotton garments and wash them according to instructions...Never dry a girdle in the hot sun or over a radiator ... Mothproof your blankets by adding a mothproofing compound to the last rinse water when you wash them ... Don't beat rugs and carpets, it breaks the fibres in the back. Vacuum for a short period twice a week ... By following these few simple directions you can in a small way help a great deal towards the war effort ...

We looked in for a little while on the Booster dinner of the YWHA at the Narragansett Hotel last Monday night ... Celia Topal looked stunning in a black and white print dress, with it she wore a large kelly hat, adorned by a long multicolored feather ... Mrs. Louis I. Kramer, who was guest of honor for the evening, favored a light beige dress, trimmed with two large rhinestone buttons ... Perked on her head was a small sailor in rose and navy ...

Fay Robin, the new president, had on a grey polka dot two-piece frock ... The skirt was pleated all around and the jacket was cut on torso lines ... A brown dress-maker suit with a white frothy lace blouse looked well on Sarah Marcowitz ... A large white off-the-face hat, trimmed in brown, gave the outfit the correct finish ... Sophia Levin wore a chartreuse wool jacket over a bright Mexican print dress ... Ruth Blane looked neat in a navy and white checked dress, with a knife pleated skirt ... And over it she wore a navy jacket ... A drawing-string dirndl of coral spun rayon with large white flowers was the choice of Edith-Abrams ...

A light brown two-piece frock, embroidered with a dainty sprinkle of blossoms and buds, was becoming to pretty Carolyn Backerman ... Ruth Abrams, who quite to her surprise, won the Essay Contest, wore a white silk jersey blouse with a spinach green wool jersey skirt ... Roselyn Garfinkle looked cunning in a combination of white skirt and tri-colored striped top ... Petite Florence

Hooded coats for summer are a style note adopted by Diana Barrymore, who compliments her smartly tailored white gabardine skirt and red, double "V"-trimmed white boucle sweater with a stunning hooded greatcoat of white wool.

Parker wore a luggage and white print dress, covered by an exquisite aqua-marine coat ... Edith Sporer favored a kelly green suit with London tan accessories. ...

A wide girdle and cuffs of navy and white polka dots were the trim of Rose Goldsmith's navy blue dress ... Evelyn Simon chose a dress of bright South American red ... With it she wore a small white hat ... Gert Tarnapol wore a green-blue two piece dress with a pink yoke ... There were many more, but limited space does not allow us to mention them all ...

Axis to Grind

Returning newsmen from Axis countries brought with them numerous stories reflecting internal conditions ... Herbert Matthews tells of the Italian diplomat who lamented that he "hated to leave our internment camp in America, to return to Italy because in America we were able to eat without paying. In Italy, we pay without eating!" And here is a story which was told in Berlin during the RAF raids there. The raids lasted all night ... In the morning the citizens emerged from the air raid shelters and went home ... Those who emerged saying "Good night!" revealed they hadn't slept ... Those who said "Good morning" revealed they had slept ... And those who said "Heil Hitler!" revealed they were still sleeping! New to the World

The Louis Brodeurs topped the list of proud parents this week with twins, a boy and girl, born at the Miriam Hospital ... Other births this week include a boy to the Louis Bessells, she was the former Lillian Gordon ... Another boy to the Herbert Cohens, she was the former Sylvia Young ... And a girl to the Max Millmans ... Mrs. Millman was the former Mollie Kiven ... A good spot to

have that after-theatre snack is the Silver Top Diner on Harris Ave. ... Open all night, the diner is one of the cleanest restaurants in town and the food is good ... Resurrection

We came across an interesting story in connection with that operetta "Bar Kochba" scheduled to play at the Metropolitan Theatre, Monday night, June 22 ... Nazi troops in Russia, so they tell us from Moscow, will soon come to grips with Russian tanks and bombers bearing the name of Bar Kochba, legendary hero of the Jewish insurrection against the Romans many centuries ago ... In the same connection, while appealing for Jewish aid, a Soviet spokesman said, "Other tank and fighter units will be named after Spinoza, Heinrich Heine, the Jewish writer Shalom Aleichem and other Jewish personalities ..."

Leonard Lyons tells the incident of a wealthy politician who was angling for the Secretary of Navy job ... That was before FDR chose Col. Frank Knox ... Jimmy Roosevelt asked his father about the possible appointment ... "No, he won't get the secretaryship of the Navy," the President assured him. "It would be too much trouble for me to have to count the battleships each night!"
